

Company Profile

Bowers Electricals Ltd and its associated companies have been providing commerce & industry for over 50 years with the complete design, refurbishment, manufacture, supply and installation of power engineering equipment.

The original company Electric Repairs (Nottm) was established in 1947 as a repair and rewind company for rotating electrical equipment. The company changed its name to Bowers Electricals Ltd in 1993 and is a family run business with members of the Bowers family involved on a daily basis.

Over the years the company expanded its facilities to manufacture, recondition & stock all types of electrical plant.

Bowers Electricals Ltd is now considered not only as a leading refurbishment, repair and manufacturing company, but also as one of the largest stockists of electrical plant in Europe, stocking a vast range of New & Refurbished Power & Distribution Transformers, HV & LV Switchgear, Induction motors, DC machines and other associated equipment.

The facilities now include Transformer manufacture up to 30MVA and we have our own specialist design & manufacturing facility. Bowers projects & installation division is able to offer maintenance & installation of all our products up to 132kV, including HV & LV cable installation, jointing, testing and commissioning.

It is the philosophy of the Directors to continually develop the range of facilities & services the company is able to offer.

Range of Services

Manufactured Products

Distribution Transformers
Power Transformers up to 30MVA
Bespoke & Special Transformers
Package Substations

HV Switchgear
LV Switchgear
Control Panels
MA Sets

Refurbished Products

Distribution Transformers
Power Transformers up to 100MVA
Bespoke & Special Transformers
Transformer Rectifiers
Package Substations

HV Switchgear
LV Switchgear
AC & DC Motors
Motor Control Panels & Drives
Gearboxes

New Stocked Products

Distribution Transformers up to 2500kVA
New Schneider Ringmaster HV Switchgear
New LV Switchgear

New Induction Motors
New Control Equipment

Project Engineering

Customer Property Overhaul
HV & LV Cable Installation
Maintenance
Discrimination Studies

Turnkey Project Engineering
Jointing, Testing & Commissioning
Transformer Overhaul & Site Service
Authorised HV Switching & Training

In house Services

Repairs & Rewinding Of Transformers & Rotating Equipment
Electro Mechanical Repairs & Machining
New Transformer Winding
Electrical Stoving & Testing
Customer Property Overhaul
HV Switching & Training Courses

Quality System

Bowers Electricals Ltd operates a recognised Management System that meets the requirements of ISO 9001:2008 with no exclusions. The management system within our organisation ensures that: -

1. We are able to consistently provide products that meet our customer and applicable regulatory requirements.
2. We will enhance customer satisfaction through effective application of the system, including processes for continual improvement of the management system and the assurance of conformity to the customer.

Through the continuous improvement of our systems, methods of work, service & quality, we are constantly questioning our management systems & structure and endlessly adapt them and us, to an ever-changing world.

We evolve good ideas to provide the most cost effective solution to all the challenges that may be set before us and we recognise and use all the individual skills, experience and talents that each employee brings with them.

This commitment by the management of Bowers Electricals Limited is working towards us being the preferred supplier and a setter of our industry's standard for Service and Quality

Health & Safety

Legal provisions require that we, as the employer, identify the duties & responsibilities for employees who have a specific role in managing health & safety in our workplace.

Those involved in the management of BOWERS ELECTRICALS LTD have their duties and responsibilities clearly defined. This is to ensure that the Health and Safety Policy is properly taken into account when designing and implementing systems and procedures.

Management have the responsibility and duty to ensure that: -

- Our employees are aware of, and understand the Health and Safety Policy.
- Our employees are aware of and understand the Health and Safety rules relating to their work.
- Our employees are adequately instructed, trained and supervised.
- Our employees are made aware of the hazards and risks associated with their work activities.
- Our employees are provided with safe products, substances, equipment, safe methods of work and an environment which is safe and healthy to work in.

We retain ownership and always remain responsible for the management of Health and Safety in our work place and the protection of our employees and others who may be affected by our acts or omissions.

Proudly Manufacturing in the U.K.
